

July 23, 2008

Ms. Diane F. Boyer-Vine  
Legislative Counsel  
State Capitol, Room 3021, B-30  
Sacramento, CA 95814

Dear Ms. Boyer-Vine:

Pursuant to the requirements of Government Code Section 16724.4, the Department of General Services is submitting the Yearly Report on the State General Obligation Bond Measure for the School Facility Program.

In keeping with our commitment to encourage conservation, we have posted this report to our website. The report can be viewed at

<http://www.legi.dgs.ca.gov/Publications/2008LegislativeReports.htm>.

The report is entitled *Yearly Report on the State General Obligation Bond Measure for the School Facility Program*.

If you wish to receive a printed copy of this report, please contact Juan Mireles, Policy Manager, Office of Public School Construction, Department of General Services, at (916) 323-4470.

Sincerely,

A handwritten signature in black ink, appearing to read "Will Bush". The signature is fluid and cursive, with a long horizontal stroke at the end.

Will Bush  
Director

## EXECUTIVE SUMMARY

Government Code 16724.4 (for full text see Attachment A) requires the Department of General Services (DGS) to provide to the Legislature and the Department of Finance a report that contains a list of all projects and their geographical location that have been funded with bonds approved after January 1, 2004.

Since January 1, 2004, two bonds have been approved by California voters. The first, Proposition 55, was approved by California voters in March 2004 and authorized the State to issue \$12.3 billion of General Obligation Bonds for construction and renovation of K–12 school facilities and higher education facilities. Of the \$12.3 billion, \$10 billion were earmarked for K–12 school districts to address overcrowding; accommodate future enrollment growth; build charter schools; renovate and modernize older school buildings; and allow participation from the community through joint-use partnerships.

The second, Proposition 1D, was approved in November 2006 and authorized the issuance of \$10.4 billion of General Obligation Bonds for construction and renovation of K–12 school facilities and higher education facilities. Of the \$10.4 billion, \$7.3 billion were designated for K–12 school districts. As with prior bonds, these funds were projected to accommodate future enrollment growth and renovate and modernize older school buildings. The Proposition 1D bond is also intended to continue the existing joint-use program; construct or modernize career technical education facilities; build charter schools; relieve overcrowding; promote high performance construction measures; fund the construction and modernization of small high schools; and repair, reconstruct or replace facilities that are the most vulnerable to seismic damage.

The State Allocation Board (SAB) is responsible for determining the allocation of proceeds from General Obligation Bond issues used for the various public school facilities funding programs. The Office of Public School Construction (OPSC), within the DGS, is staff to the SAB and is responsible for the management of these funds and the expenditures made with them.

This report was prepared by the OPSC and includes a summary of Propositions 55 and 1D, and a brief introduction to the SAB, and the OPSC. The primary portion of this report is the mandated listing of all districts, county offices of education, and charter schools that have been appropriated bond funds from Propositions 55 and 1D and includes the project's geographical location, school district, school/project name, project number, total funds apportioned including financial hardship, and the status of the project.

As of December 12, 2007, the SAB has apportioned \$6.6 billion for new construction projects and \$2.2 billion for modernization projects from Proposition 55, representing more than 288,018 new seats for California's schoolchildren, and safe, accessible, and updated school facilities for 450,199 pupils. Apportionments from Proposition 1D in the same timeframe have totaled \$550 million for modernization projects, resulting in safe, accessible, and updated school facilities for 111,361 pupils. (Proposition 1D funds for new construction will not be apportioned until Proposition 55 new construction funds are exhausted.)

BACKGROUND

Proposition 55

This bond measure was approved by California’s voters in March 2004 and is the third measure authorizing the State to issue bonds for the School Facility Program (SFP) since its inception in 1998. The K–12 portion of the measure is summarized as follows:

Purpose	Bond Allocation
New Construction	\$5,260,000,000 <sup>1</sup>
Modernization	2,250,000,000 <sup>1</sup>
Critically Overcrowded Schools	2,440,000,000
Joint-Use	50,000,000
Total K–12	\$10,000,000,000

**New Construction:** A total of \$5.26 billion was made available to buy land and construct new school buildings. A district is required to pay for 50 percent of the costs with local resources unless it qualifies for State financial hardship funding, whereby the State can contribute up to 100% of the total project costs. The measure also provides that up to \$300 million of these new construction funds are available for charter school facilities. Charter schools are public schools that operate independently of many of the requirements of regular public schools.

**Modernization:** The proposition makes \$2.25 billion available for the reconstruction or modernization of existing school facilities. A district is required to pay 40 percent of the total project costs from local resources unless it qualifies for State financial hardship funding as described above.

**Critically Overcrowded Schools:** This proposition provides an additional \$2.44 billion to districts with schools which are considered critically overcrowded. These funds are for districts to construct new classrooms to relieve the overcrowded school sites.

**Joint-Use Projects:** The measure makes a total of \$50 million available to fund joint-use projects. These funds are available to encourage partnerships between school districts and local communities to share facilities such as libraries, gymnasiums, multi-purpose rooms, childcare, and teacher education facilities. Costs to build these facilities are shared by the State, school district, and the joint-use partner.

<sup>1</sup>Includes \$14.2 million that may be used to increase the grants for projects with qualifying energy efficiency provisions for new construction and \$5.8 million for modernization; new construction also includes \$300 million for Charter Schools Facilities.

## Proposition 1D

Proposition 1D, the most recent bond measure, was approved by California's voters in November 2006 and provided the following funding:

Purpose	Bond Allocation
New Construction*	\$1,900,000,000 <sup>†</sup>
Modernization*	3,300,000,000
Joint Use	29,000,000
Career Technical Education	500,000,000
Charter Schools	500,000,000
High Performing Schools	100,000,000
Overcrowding Relief Grant	1,000,000,000
<b>Total</b>	<b>\$7,329,000,000</b>

**New Construction:** A total of \$1.9 billion was made available to buy land and construct new school buildings. A district is required to pay for 50 percent of the costs with local resources unless it qualifies for State financial hardship funding. The measure also provides that up to \$199.5 million of these new construction funds be available for repair, reconstruction, or replacement of school facilities that are the most vulnerable to seismic damage.

**Modernization:** Proposition 1D makes \$3.3 billion available for the reconstruction or modernization of existing school facilities. A district is required to pay 40 percent of project costs from local resources unless it qualifies for State financial hardship funding as described above.

**Joint-Use:** Proposition 1D continues the existing Joint-Use Program, providing \$29 million from the current measure and authorizing the transfer of up to \$21 million from prior bond measures, resulting in a total of \$50 million available to fund joint-use projects. The program promotes partnerships and cost sharing between school districts and local communities for facilities such as libraries, gymnasiums, multi-purpose rooms, childcare, and teacher education facilities.

**Career Technical Education:** This bond measure makes \$500 million available to local educational agencies and joint powers authorities for the construction or modernization of facilities that will

\* Up to \$200,000,000 of the sum of the appropriations for new construction and modernization shall be used to fund the smaller learning communities and small high schools.

† Up to 10.5 percent shall be available for purposes of seismic repair, reconstruction, or replacement, pursuant to Education Code Section 17075.10.

enhance career technical education opportunities. An applicant is required to contribute 50 percent of the eligible costs from local resources unless local funds are not immediately available, in which case the district may request a loan to cover the local share.

**Charter Schools:** The measure makes \$500 million available for the creation of charter schools facilities, either through new construction or the purchase and rehabilitation of existing buildings.

**High Performing Schools:** A total of \$100 million is provided as incentive to incorporate high performance attributes in new construction and modernization projects. Such attributes include using designs and materials that promote energy and water efficiency, maximizing the use of natural lighting, improving indoor air quality, utilizing recycled materials and materials that emit a minimum of toxic substances, and employing acoustics that are conducive to teaching and learning.

**Overcrowding Relief Grant:** Proposition 1D provides \$1 billion to relieve overcrowding at qualifying campuses. These funds are for districts to reduce school site pupil population density by replacing portable classrooms with permanent classrooms.

## **OVERVIEW OF THE SAB AND OPSC**

### **State Allocation Board**

Created in 1947 by the State Legislature, the SAB is responsible for determining the allocation of State resources including proceeds from General Obligation Bond issues and other designated State funds used for the new construction and modernization of public school facilities. The SAB is also charged with the responsibility for the administration of the Deferred Maintenance Program, Emergency Repair Program, State Relocatable Classroom Program, and several other facilities related programs. Handbooks on these programs may be located on the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov). The SAB typically meets monthly at the State Capitol, where it reviews and approves applications for eligibility and funding, acts on appeals, and adopts policies and regulations as they pertain to the programs that the SAB administers.

### **Office of Public School Construction**

The primary function of the OPSC is to enrich the lives of California's schoolchildren as stewards of the taxpayers' commitment to education by administering the school facility funding programs and monetary resources available to the SAB. As staff to the SAB, the OPSC is responsible for providing the assistance necessary to carry out the law, regulations, policies, and programs of the SAB, and administer all programs that are under the purview of the SAB with equity and integrity.

**DEFINITION OF TERMS**

Definitions for terms found in the “Status” column of the Attachments are as follows:

“Apportioned”	The project has been apportioned, but the funds have not yet been released.
“Funds Released”	Funds have been released for the project; however, the district has not been required yet to submit an expenditure report, which is required one year after the funds have been released. In order to have the funds released, a district must certify that it has entered into a binding contract for at least 50 percent of the construction in the plans. Note that design funds are automatically released to a financial hardship district within 30 days of the apportionment. For more information regarding which funds have been released for a specific project, please check project tracking on the OPSC Web site.
“Percent Complete”	The district has submitted an expenditure report detailing the percentage of the project completed. The project currently is not closed.
“Completed”	The project and close-out audit are complete.

## **ATTACHMENT A – GOVERNMENT CODE**

**16724.4.** Any state bond measure approved by the voters on or after January 1, 2004, shall be subject to an annual reporting process, as follows:

- (a) The head of the lead state agency administering the bond proceeds shall report to the Legislature and the Department of Finance no later than January 1, 2005, or the January 1 of the second year following the enactment of the bond measure, whichever is later, and at least once a year thereafter. The annual report shall contain all of the following:
  - (1) A list of all projects and their geographical location that have been funded or are required or authorized to receive funds.
  - (2) The amount of funds allocated on each project.
  - (3) The status of any project required or authorized to be funded.
- (b) Costs of the report may be included in the cost of administering the bond measure unless the measure specifically prohibits those expenses.
